

A&M's policy is to work with tried and tested equipment suppliers, enabling us to operate a full range of machines with similar control systems, providing operational flexibility.

**CNC Precision Engineering**

**A&M offers high precision engineering including high speed machining; 3, 4 and 5 axis machining and the latest generation of EDM wire cutting and spark erosion.**

Our HURCO CNC machines range from compact 3 axis machines to large capacity 5 axis machines, enabling us to programme multiple operations and run work as 'lock and load', with the unmanned and 'lights out' operation overnight and at weekends using optimised speeds. We have invested in shrink fit tooling, to reduce vibration and extend tool life.

CNC Millers	X/Y/Z axis	Manufacturer details	
<b><u>3 Axis</u></b>			
HURCO DCX22 40T	2200 x 1700 x 750 mm	<a href="http://www.hurco.com/en-gb/machine-tools/machining-centres/vertical/pages/double-column.aspx">http://www.hurco.com/en-gb/machine-tools/machining-centres/vertical/pages/double-column.aspx</a>	
HURCO DCX32 50T (x2)	3200 x 2100 x 920 mm		
HURCO VM1	660 x 356 x 457 mm		
HURCO VM10i	660 x 406 x 508 mm		
HURCO VM3	1320 x 457 x 457 mm		
HURCO VMX 30S	762 x 508 x 610 mm		
HURCO VMX 42 (x3)	1066 x 610 x 610 mm		
HURCO VMX 84Ti	2134 x 864 x 762 mm

**EDM Wire and Spark Erosion**

**Our comprehensive range of Sodick wire erosion machines includes some of the largest machines in the UK, enabling us to schedule work flexibly to achieve rapid turnaround times.**

Many of our machines incorporate the latest four axis linear motor technology to meet the most demanding requirements for surface finish and accuracy.

<b>Sodick Wire Erosion</b>	<b>X/Y/Z axis</b>	<b>Manufacturer details</b>
<b>A325</b>	350 x 250 x 220 mm	
<b>AG600L (x4)</b>	700 x 500 x 400 mm	<a href="http://www.sodick.org/products/precision-wire-edm/ag600l.html">http://www.sodick.org/products/precision-wire-edm/ag600l.html</a>

**Metrology and Quality inspection**

**Quality assurance and quality control are critical to our manufacturing process.**

We have invested £500,000 in a climate controlled metrology room and testing equipment to ensure we consistently manufacture to the tight tolerances our aerospace and automotive OEM customers require.

Metrology measurement Coordinate Measuring Machines (CMM)	Capacity
Hexagon Global Performance 12.30.10 with Leitz scanning head Technology	1200 x 3000 x 1000 mm
IMS Merlin	1000 x 2500 x 750 mm
Aberlink Axiom Too	600 x 1000 x 400 mm

**Quality Inspection & Testing equipment**

**3D Laser scanner - HandySCAN 700 3D**

**Digital Bore Micrometres - Mahr, Mititoyo**

**Digital Imagery Measurement for small and delicate parts - Project X, Aberlink**

**Dynamic Balancing Machine to less than 1g.mm**

**Dynamometer – Land and Sea DYNO-mite C 50 hp, eddy-current brake**

**Dynascopes - Vision Engineering, Digimax DX1 Micro Height**

**Hardness testing equipment - Zwick Roell ZMU**

**Injector Tester and ultra-sonic cleaner – ASNU**

**Micro height gauge - Sylvac Hi-Cal 300**

**Microscopes - Mantis Elite, Photonic PL2000**

**Shadowgraphs - Mititoyo PH3500, Starrett 400**

**Surface Testers - Mititoyo S-400, Mititoyo SJ400**

**Non-Destructive Testing (NDT) undertaken by registered approved suppliers**

**Laser and conventional Welding**

Welding	Capacity
<p><u>Laser</u>  <b>Rofin Integral</b></p> <p><b>Rofin Select</b></p> <p><b>Rofin Star Laser Weld Tool Open</b></p> <p><u>Manual</u>  <b>Mig, Tig and Arc welders</b></p>	<p>Spot welds using a galvo head to deflect the beam, and seam welds using overlapping spots or with a continuous beam.</p> <p>Standalone portable system, enabling us to deliver laser welding at a customer's site.</p>

Other equipment
<p><b>Cranes – 4 cranes up to 10 tonnes</b></p> <p><b>Cylindrical Grinders x9</b></p> <p><b>Drills – Pedestal drills x3, Radial drills x2</b></p> <p><b>Part Marking – Dot matrix, Laser, Chemical</b></p> <p><b>Power Saws – 3x horizontal, 1 band saw</b></p> <p><b>Shot Blasters – dry and wet</b></p> <p><b>Surface Grinders – 8 grinders, up to 1000 x 500 x 400</b></p> <p><b>Try out Press – up to 150 tonnes</b></p> <p><b>Ultrasonic cleaners – EMX 2000 &amp; 3000, manual MCS</b></p>

CAD software
